

Project Design Phase

Problem – Solution Fit Template

Date	18th February 2026
Team ID	LTVIP2026TMIDS57900
Project Name	Online Payments Fraud Detection using Machine Learning
Maximum Marks	2 Marks

Problem – Solution Fit Template:

<p>1. CUSTOMER SEGMENT(S)</p> <p>- Primary Customers (B2B): Banks, Payment Gateways, Credit Card Companies, Fintech Companies, E-commerce platforms</p> <p>- Secondary Customers (Indirect beneficiaries): Online shoppers, Account holders, Digital wallet users</p>	<p>2. JOBS-TO-BE-DONE / PROBLEMS</p> <p>- Fraudulent Transactions</p> <p>- Missed Fraud Cases</p> <p>- False Positives</p> <p>- Slow Detection</p>	<p>3. TRIGGERS</p> <p>- Sudden spike in fraud cases</p> <p>- Regulatory penalties</p> <p>- Customer complaints</p> <p>- Media exposure of fraud</p>
	<p>4. EMOTIONS: BEFORE / AFTER</p> <p>- Fear of financial loss <-> Confidence</p> <p>- Stress <-> Security</p> <p>- Frustration <-> Trust</p> <p>- Lack of control <-> Operational efficiency</p>	
<p>5. CUSTOMER CONSTRAINTS</p> <p>- Highly imbalanced data</p> <p>- False positives affecting genuine users</p> <p>- Need for real-time processing</p> <p>- Evolving fraud patterns</p> <p>- Infrastructure cost</p> <p>- Regulatory and compliance constraints</p>	<p>6. PROBLEM ROOT CAUSE</p> <p>- Increasing digitization + weak pattern detection</p> <p>- Rule-based logic limitations</p> <p>- Overly strict thresholds</p> <p>- Manual review techniques</p>	<p>7. BEHAVIOUR</p> <p>- Use rule-based filters - High Urgency</p> <p>- Monitor alerts manually - Continuous monitoring</p> <p>- Investigate suspicious transactions</p> <p>- High Operational cost</p> <p>- Refund fraud victims - High financial risk</p>
	<p>8. YOUR SOLUTION</p> <p>A Machine Learning-based real-time fraud detection system using XGBoost that accurately predicts fraudulent transactions with extremely high recall and minimal fraud miss rate.</p>	
<p>9. AVAILABLE SOLUTIONS</p> <p>- Rule based systems</p> <p>- Manual Review Teams</p> <p>- Basic Machine Learning Systems</p>	<p>10. CHANNELS of BEHAVIOUR</p> <p>ONLINE</p> <p>Banking software dashboards, Fraud monitoring systems, internal analytics tools, Fintech platforms</p> <p>OFFLINE</p> <p>Board meetings, Risk management teams, Financial audit departments, Banking conferences</p>	<p>Explore AS.</p> <p>Focus on J&P, tap into BE.</p> <p>Extract online & offline CH of BE</p>
